Professional Summary

Backend-focused software engineer with 5+ years of experience building and maintaining scalable web applications and APIs across fintech, e-commerce, property management, booking, government, and AI-assisted platforms. Strong hands-on experience with Node.js, NestJS, Express.js, PostgreSQL, MongoDB, REST APIs, authentication and authorization, database integration, system design, and performance optimization. Currently serving as Senior Backend Developer on the Talmow application at Getstac, with a strong frontend background in React.js, Next.js, Angular, and TypeScript that supports effective end-to-end product delivery. Experienced translating business requirements into reliable, production-ready software and collaborating across product, frontend, and stakeholder teams.

Technical Skills

Backend: Node.js, NestJS, Express.js, Python, FastAPI, PHP, Laravel, REST APIs, GraphQL
Databases & Data: PostgreSQL, MongoDB, MySQL, Redis, Prisma, TypeORM
Backend Engineering: API Design, Authentication & Authorization, System Design, Database Integration, Business Logic, Performance Optimization, AI Integration
Frontend: React.js, Next.js, Angular, TypeScript, JavaScript, Tailwind CSS, Redux Toolkit, React Query, Framer Motion
Tools: Docker, Git, Postman, Firebase, Cloudinary

Professional Experience

Senior Backend Developer (Talmow App) | Getstac Org | Apr 2026 - Present

- Lead backend architecture and development for the Talmow application using NestJS and PostgreSQL.
- Design scalable REST APIs, authentication and authorization flows, database integrations, and core business workflows.
- Work closely with stakeholders, product, and frontend teams to translate requirements into reliable, production-ready backend solutions.

Senior Frontend / Full Stack Developer | Global Impact IT Solutions and Consults (GIITSC) | Nov 2022 - Present

- Develop and maintain scalable full-stack web applications using Next.js, NestJS, PostgreSQL, and MongoDB.
- Lead implementation of enterprise platforms spanning fintech, booking, e-commerce, property management, and administrative systems.
- Build and integrate backend APIs and data-driven workflows alongside customer-facing and administrative interfaces.
- Refactor and optimize legacy systems for improved performance, maintainability, and scalability.

Backend Developer | Getstac Org | Jun 2025 - Apr 2026

- Developed REST APIs and backend services using NestJS.
- Implemented authentication, authorization, database integrations, and core business logic.
- Collaborated with product and frontend teams to deliver production-ready features.

Backend Developer | iBookam | Jan 2026 - Apr 2026

- Developed backend services and REST APIs using NestJS and PostgreSQL.
- Implemented authentication, authorization, and booking-related business workflows.
- Optimized API performance and database operations for scalability.

Additional Professional Experience

Frontend Developer | PXN Technologies | Jun 2024 - Present

- Currently developing the frontend of the PXN e-commerce dashboard, building operational interfaces for day-to-day commerce workflows.
- Built and maintained administrative dashboards for wallet, merchant, user, and transaction management.
- Contributed to frontend development of PXN Wallet and POS management interfaces.
- Collaborated directly with business stakeholders to improve workflows and internal tools.

Frontend Developer | Dwelliva | Dec 2025 - May 2026

- Built responsive property management interfaces using Next.js and TypeScript.
- Integrated APIs for listings, wallets, bookings, onboarding, and dashboard workflows.
- Developed reusable UI components and improved user experience across the platform.

Selected Projects

- Talmow - Backend architecture, REST APIs, authentication, database integration, and business workflows.
- iBookam - Booking and Business Management Platform - Backend Development.
- PXN Wallet & POS Platform - Frontend Development and Administrative Dashboards.
- PXN E-commerce Dashboard - Frontend Development.
- Dwelliva - Property Management Platform.
- Discount Hub - AI-assisted Product Discovery Platform.
- Plateau State Government Official Website.
- NESCO Nigeria Website.

Education

Master of Information Technology (MIT) | MIVA Open University | In Progress - Expected 2027

B.Sc. Computer Science | University of Uyo
