PROFESSIONAL SUMMARY

Frontend-focused software engineer with 5+ years of experience building responsive, scalable, and production-ready web applications across fintech, e-commerce, property management, booking, government, and AI-assisted platforms. Strong hands-on experience with React.js, Next.js, Angular, TypeScript, JavaScript, Tailwind CSS, state management, API integration, reusable component architecture, dashboard development, and frontend performance optimization. Experienced delivering complex administrative and customer-facing interfaces, translating business requirements into intuitive user experiences, and collaborating closely with product, design, backend, and stakeholder teams. Also brings strong backend experience with Node.js, NestJS, PostgreSQL, and REST APIs, enabling effective end-to-end product delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Angular, TypeScript, JavaScript, Tailwind CSS, Redux Toolkit, React Query, Framer Motion
Frontend Engineering: Responsive UI Development, Component Architecture, State Management, API Integration, Dashboard Development, Performance Optimization, Accessibility, Reusable Design Systems
Backend: Node.js, NestJS, Express.js, Python, FastAPI, PHP, Laravel, REST APIs, GraphQL
Databases & Data: PostgreSQL, MongoDB, MySQL, Redis, Prisma, TypeORM
Tools: Docker, Git, Postman, Firebase, Cloudinary

FRONTEND & FULL STACK EXPERIENCE

Senior Frontend / Full Stack Developer | Global Impact IT Solutions and Consults (GIITSC) | Nov 2022 - Present

- Develop and maintain scalable web applications using Next.js, React, TypeScript, NestJS, PostgreSQL, and MongoDB.
- Lead implementation of enterprise platforms spanning fintech, booking, e-commerce, property management, and administrative systems.
- Build reusable frontend components, data-driven dashboards, and integrated workflows connected to production APIs and backend services.
- Refactor and optimize legacy applications for improved performance, maintainability, responsiveness, and user experience.

Frontend Developer | PXN Technologies | Jun 2024 - Present

- Currently developing the frontend of the PXN e-commerce dashboard, building responsive operational interfaces for day-to-day commerce workflows.
- Built and maintained administrative dashboards for wallet, merchant, user, and transaction management.
- Contributed to frontend development of PXN Wallet and POS management interfaces, integrating APIs and complex data-driven workflows.
- Collaborate directly with business stakeholders to improve workflows, usability, and internal operational tools.

Frontend Developer | Dwelliva | Dec 2025 - May 2026

- Built responsive property management interfaces using Next.js and TypeScript.
- Integrated APIs for listings, wallets, bookings, onboarding, and dashboard workflows.
- Developed reusable UI components and improved consistency and user experience across the platform.

BACKEND EXPERIENCE

Senior Backend Developer (Talmow App) | Getstac Org | Apr 2026 - Present

- Lead backend architecture and development for the Talmow application using NestJS and PostgreSQL.
- Design scalable REST APIs, authentication and authorization flows, database integrations, and core business workflows.
- Collaborate closely with frontend and product teams, strengthening end-to-end implementation and API integration decisions.

Backend Developer | Getstac Org | Jun 2025 - Apr 2026

- Developed REST APIs and backend services using NestJS, including authentication, authorization, database integrations, and business logic.
- Collaborated with product and frontend teams to deliver production-ready features and reliable API integrations.

Backend Developer | iBookam | Jan 2026 - Apr 2026

- Developed backend services and REST APIs using NestJS and PostgreSQL for booking and business management workflows.
- Implemented authentication, authorization, and performance-focused database operations.

SELECTED PROJECTS

- PXN E-commerce Dashboard - Frontend development of operational e-commerce workflows and dashboard interfaces.
- PXN Wallet & POS Platform - Frontend development and administrative dashboards for wallet, merchant, user, and transaction operations.
- Dwelliva - Responsive property management platform built with Next.js and TypeScript.
- Discount Hub - AI-assisted product discovery platform.
- Plateau State Government Official Website.
- NESCO Nigeria Website.
- Talmow - Backend architecture, REST APIs, authentication, database integration, and business workflows.
- iBookam - Booking and business management platform - backend development.

EDUCATION

Master of Information Technology (MIT) | MIVA Open University | In Progress - Expected 2027

B.Sc. Computer Science | University of Uyo
